Ovzon T5

The smallest transportable satellite terminal

Ovzon T5 is an all-in-one broadband terminal, sized like a laptop that allows access to Ovzon's Ku-band broadband service. It takes only few minutes to deploy and connect. The user-friendly graphical user interface allows the user complete control with any smartphone, tablet or laptop. The all-in-one design, including integrated modem and batteries, gives the terminal a full-range, compact design with no performance loss.

Specifications

- Dimensions: 2097 / 399 / 51 mm
- Weight 8.2 kg (including batteries)
- Transmit*: 1-30 Mbps
- Receive*: 20-60 Mbps at >20° el.
- User interface: LCD display, Web browser
- Signal interface: LAN, WLAN Access Point
- L-band tx/rx
- Temperature: -25°C to +55°C
- Environmental: IP65, CE
- Consumption: Standby typ. 2 W, Transmit typ. 8-140 W
- DC/PC Power supply: 9-36 VDC input
- AC/DC power supply: Input 100-240 VAC

**) in the Ovzon coverage area, maximum speed depends on coverage*
